ABOUT ME

I am Felix, currently in my third year of undergraduate studies at BINUS University, where I am diligently working towards my Bachelor's degree in Information Systems with a specialization in Applied Database. I find immense intrigue in the realm of technology and the boundless potential of data, and I am eager to share a glimpse of my academic journey with you.

In my capacity as an ardent enthusiast of technology and data, my path is a perpetual odyssey aimed at broadening my horizons and honing my proficiency in Information Systems. The profound influence of data on informed decision-making has captivated my intellectual curiosity. This ardor has driven me to aspire to roles in Data Analysis, Web Development, and Business Analysis.

Throughout my academic expedition, I have been fortunate to immerse myself in the domains of data analysis, programming, and web development. My passion for unraveling insights and crafting meaningful solutions using data has only grown stronger. The process of constructing websites from the ground up has been deeply gratifying, providing me with the means to transform abstract concepts into interactive digital experiences.

EDUCATION

Bina Nusantara University (CGPA: 3.5 out of 4) 2021 - Present
Information System

Saint Peter Senior High School 2017-2020
Social Science

WORK EXPERIENCES

Hoki Motor Jan 2020 – Jan 2022
General Manager – full-time

As General Manager at Hoki Motor, I oversaw all business operations including motorbike workshop and spare parts sales. I developed and executed business strategies that increased revenue and profitability, and maintained customer relationships through effective communication and negotiation skills. I focused on developing my team's skills and implemented various initiatives to drive growth and profitability. My experience has equipped me with skills in business strategy, development, leadership, and customer experience.

PT. Mitra Makmur Angkasa Feb 2022 – Present
Supply Chain Manager – full-time

I managed the end-to-end supply chain process as a Supply Chain Manager at PT. Mitra Makmur Angkasa. My focus on efficiency and quality improved customer satisfaction. I developed strong supplier relationships and monitored supply chain performance using data analysis. I leveraged technology to reduce costs and mitigate business risks. My skills in team leadership, supplier management, and data analysis enable me to drive operational excellence and customer satisfaction.

Freelance Web Developer Aug 2023 – Present
Front End – part-time

As a freelance front-end web developer, I specialize in creating engaging and visually appealing websites that meet my clients' unique needs. I have a strong command of HTML, CSS, and JavaScript, which are the building blocks of the modern web. I take pride in turning creative concepts into functional, user-friendly websites that leave a lasting impact.

ORGANIZATION EXPERIENCES AND VOLUNTEERING EXPERIENCE

BINUS Finance Club Sept 2021 – Present
Member

Contribute as participant to hear about Stocks Market Outlook and learn how to analyze Stocks

Teach For Indonesia April 2023
Volunteer

- Collaborated with team to educate junior high school students on the importance of anti-racism, fostering inclusivity, and celebrating diversity.
- Organized cultural enrichment programs to introduce Indonesian traditional music to kids, celebrating the country's rich heritage and preserving its cultural traditions.
